BROTHERHOOD OF THE WHITE TEMPLE, INC.

## B.W.T. CHURCH & COLLEGE

The Brotherhood of the White Temple is a chartered Church, maintaining a College and other essential branches for the dissemination of Truth. The Brotherhood Church and the Brotherhood College function as two departments of teaching, each supporting the other. College membership, and Church Membership are distinctly separate - and many of our students are members of both - for the Truth derived from the weekly lessons of either the College or the Church help in the understanding of the other.

The Brotherhood is a corresponding Church, and College. The College is a Metaphysical School wherein the Laws of the Universe are taught and in which the student learns how to operate these Spiritual Laws through the exercise and initiations given him. The Church teaches all of the Mysteries taught by Jesus, the Christ, to his disciples. It teaches the student how to read the mystical writing found in the Bible and how to understand their true and concealed meaning. The members of the Church are shown how to attain citizenship in the coming Christ-kingdom and how to become a perfect channel for the Divine Spirit.

The Brotherhood grants degrees of Doctor of Metaphysics, Ordains Ministers and issues Practitioner's Certificates, in Spiritual Healing. Write for FREE Brochure, "Master of Destiny," - describing the Teachings of the Brotherhood.

# BROTHERHOOD NEWSLETTER

Dear Students and Friends:

The warm days and cool nights we are having here now remind us that Summer will soon be here. We are looking forward to meeting many of the Students who are planning a visit here this Summer. We welcome Mr. and Mrs. D. D. Owen from Long Beach, California, who arrived here June 8th and plan to spend a few days here.

The Board of Trustees of Shamballa are making arrangements to have over-night facilities available to visiting Students. The facilities will include fresh linen, bath, and the use of the kitchen. The rates for these facilities will be in this column next week.

The Shamballa Volunteer Fire Department had their regular monthly meeting last Sunday June 7th, and all of the Firemen enjoyed coffee from the new coffee-maker which was purchased by the Shamballa Fireflies. The Firemen began marking the hand tools with a color code so that when two or more Fire Departments are cooperating on a fire that we can tell our equipment from others. Our colors are rings of blue and gold with the letters S.B. also stenciled on the handles of the axes, shovels, etc.

The Summer schedule for the lectures

in the Temple will begin June 21st. The 1:30 P.M. lecture will be changed to 2:00 P.M., and the 3:30 P.M., lecture will be at 7:00 P.M. The Healing Period will be from 7:00 until 7:10 P.M. Many students have reported receiving help from the Healing Period and we should all renew our efforts in maintaining this force each Sunday as its effects reach not only those who need healing, but also helps to raise the vibrations in bringing about the Golden Age on earth.

In Cosmic Harmony,

Robert Morrow

# FATE, HEREDITY, REINCARNATION AND KARMA BY

DR. M. DOREAL

(Part Three)

We have occasionally records of such similar memories even in modern times. Lord Byron could repeat any verse in the Old or New Testament when called upon and he could quote from memory and that was only one of many works that he knew word-by-word. Shakespeare was another.

when we speak thus of heredity we can say that man is motivated in a great degree by the inherited instincts, and tendencies. That is the reason that so many people have a sub-conscious feeling that they are born into a certain class, into a certain degree of intelligence and they cannot rise above it. That is erroneous and wrong but it is a fact in the world today. That is the reason that unless there are natural tendencies in a person you can give them all the education in the world and they will only have a memorized knowledge. The reason that there are so few really great minds in the world today is because man is evolving, and does not have the background in his immediate ancestry of great mental power and development and power of thought that perhaps, a few generations from now

will be developed in mankind because we now are developing the power which perhaps will become an inherited instinct to our coming generations. Each generation adds something to the generations which come after, not only the things that come in books but the things transmitted physically from body-to-body.

Now we come to reincarnation. Let us not confuse reincarnation with transmigration or metempsychosis. Reincarnation is the law of continuity of consciousness and it states this, that every individual in the world, so far as their spiritual and mental and individual ego or self is concerned, has lived for life after life, time after time, age after age, that this present life is not the first or the last that most of us will live. Correctly understood, reincarnation does not, as so many believe, teach of old or new souls.

Reincarnation as taught in the Temples in Tibet and in the Buddhist teachings, and many others, says that all souls, all egos or consciousness are of exactly the same age because they are a part of the spiritual nature of God and God is not old in one part and new in another, that the thing which makes some souls seem old and others young is simply this, that in past lives or incarnations that some souls have drifted, that they have passed through life-after-life without ever accomplishing very much, that they have put forth no effort to gain or retain anything, that they have merely

lived, worked, eaten, slept, and died, as about nine hundred and ninety-nine persons out of a thousand or more do to-day. In other words, they existed on the same level of the lower animal without ever lifting their eyes to the stars, that they are content merely to live in comfort and they think that if they have advanced the material comforts that they have become civilized and grown.

As a matter of fact, the world to-day is not civilized. The world is in a lesser state of civilization than it has been many times in the past. If the world were civilized, there would be no wars, hatred, or intolerance, but all those things are major factors in the life of mankind and therefore, he is uncivilized. He has merely learned to use more of the laws of nature for his own comfort but so far as his spiritual growth and mental growth and awareness are concerned he has not advanced very much in the last two thousand years or more, so when we speak of reincarnation, we are speaking of the law which insures continuity of consciousness. An apparent old soul is a soul that throughout the ages has not been content to merely exist. It is one that throughout the ages has sought the reason of things, that it has sought to delve behind the surface and know the laws, powers and principles that motivate him. Such an one passing from life to life, manifests and radiated the appearance of wisdom, and age-old knowledge and thus, we say, they are an old soul, when as a matter of fact, are merely a

developed soul which is something entirely different.

There are many persons who had the same educational developments as Einstein but Einstein became the world's greatest mathematician because he developed that power within himself. Someone may say, "Perhaps, in the past he developed it." Not at all. He is an example of what can be developed in one life. When he was going to college he failed in mathematics and then became the world's greatest mathematician. Therefore, it was merely developed in this life and age which proves that even if we have not developed talent and power in the past, we may unfold that in one life.

When we speak of reincarnation we must understand that it is under certain definite laws and principles; that is, that everyone of us are bound to what the Buddhist calls the Wheel of Life, bound until we free ourselves from it. There is a great deal of misunderstanding about the Buddhist Wheel of Life. Some people think it means merely this earth upon which we dwell. The Buddhist wheel of life encompasses the entire earth and cosmos. Its hub is that great central nucleus of the cosmos around which all planetary systems revolve. Its hub is one of pure spiritual energy and its circumference is the material planes in which we live, move, and have being, and encompasses all planets upon which life is found. Man is bound to the wheel of life until by his own actions he frees

from the bondage to that wheel of life. The life that we live is one tiny rim of that wheel of life. The Buddhist seeks to free himself from it.

The great mass of Buddhists are taught that if they do not live a good life that they will come back as a worm, dog, snake, or something of the sort. That is taught to the great mass of people bound to the wheel of life, living in negation just as the Western people are. That animal reincarnation was taught to them for the same purpose that Christianity taught Hell, to scare the people into doing right. Jesus never taught Hell. Hell was formulated by the church that came after because man would not do right unless he was afraid not to.

There is a certain part of the brain that has those inherited instincts manifested within them. That is the part of the brain which is found where the spinal cord connects with the brain. Those cells and some of the cells of the spinal cord form the Medulla Oblongata.

When we speak of reincarnation we are not speaking of any belief that the soul of man has reincarnated as a snake, bug, worm or anything of the sort. As I was taught, reincarnation in the East, the soul is something separate and apart from the physical. It is an emanation of the Divine or Spiritual nature of God and as such, it is Divine by nature and has absolute continuity of existence.

When Jesus said that "Many now liv-

ing shall never die, many who now hear me shall not taste of death," when he said, "Go let the dead bury their dead," he was speaking of those who were bound to the wheel of life because the Adept, the one instructed in the secret wisdom does not die because what is death? The ancients had an entirely different concept of it than modern man. They considered death a state of sleep or forgetfulness, just as they speak of sleep as the little death and just as Jesus spoke of Lazarus as sleeping when he was what the world calls dead. He said to the disciples, Lazarus sleepeth and they said, "If he sleeps, let him sleep - it is well." Thus we can see that the concept Jesus had of death was sleep from which the soul would awake refreshed, and ready for a new life.
